DOCUMENTATION OF NURS 700/702 HOURS

- Masters students in the College of Nursing selecting the project option must complete a minimum of 3 credits of NURS 702. At least one credit (60 hours) is taken with a faculty member who is performing research. The student participates in some phase of research such as study design, completion of Institutional Review Board (IRB) application, data gathering, analysis, or scholarly work related to research.
- Masters' students selecting the Thesis Option must complete a minimum of 6 hours of 700.
- At least two NURS 700 or 702 credits are taken the semester that the student expects to graduate and objectives relate to completion of the masters' thesis or clinical project.
- Washington State University requires that every **full time** graduate student in a masters' program take at least one credit of NURS 700 or 702 each fall and spring semester. For part time students additional NURS 700/702 credits may be taken at any time.
- Students plan with their advisor/committee chair to establish the goals for each credit of NURS 702. The student completes **Section A** for **702 research credits** and **Section B** for **either 700 or 702 credits related to project or thesis**.
- The completed form is submitted to the College Graduate Program office by finals week of the semester for which the student is registered for the credits.
